SOLUTIONS

Helping you to help  
yourself

## Transport arrangements

One in three older people find it difficult to get where they want to go, particularly if they are without a car or find the bus difficult. Transport is vital to helping older people stay independent at home and active in their local communities – and we are here to help.

These may be trips to and from hospital or to a GP appointment. Equally, these may be trips to the shops or into town, journeys that enrich lives and really add to the pleasure of day-to-day living.

## Support at Home

Genuinely caring for the customers we support is what makes us such a passionate and approachable team. Our team can offer assistance with personal hygiene, toileting, bathing, dressing, continence care, medication, moving and handling transfers, laundry, light house work, ironing, shopping, prescription collection, meal preparation, companionship, day trips out, sitting in service and pet care including feeding and dog walking. We are able to support with other services and will tailor your care package to your needs

## Aid services

ALLBEST SOLUTIONS are able to offer you assistance with the Application of Disabled Facilities Grants (DFG's) – Do you require help submitting your application to the council? Are you unsure which supporting paperwork you are required to supply? ALLBEST SOLUTIONS has vast experience in dealing with all the councils across Surrey. You may be eligible for free support.

## Independent and Assisted living

To us, it's simply common sense to make sure the care we provide to older people takes each individual's likes, dislikes, preferences and care needs into account.

This is the basis of the standards that we set for ourselves. We'll find out what you really enjoy doing – even old hobbies that you like to recall. Together, we'll create a plan for activities. Typical activities include visits to a badminton game, a Hollywood movie, star photograph exhibitions, music and dancing performances, shell-collecting, chess playing, knitting and craft club, or painting lessons - a whole range of ways to stay socially active and to have fun.
